Address: Scheme 33 university road safoora, karachi

Portfolio: <https://waleedportfolio-eosin.vercel.app>

SKILLS

- **Frontend :** HTML, CSS, JavaScript, React, Next.js, Tailwind CSS
- **Backend :** Node.js, Express.js, MongoDB
- **Python :** NumPy, Pandas, Matplotlib, Scikit-learn

PROJECTS

FoodNode (Full Stack Web Application)

- Developed a full-stack food video platform using Next.js, Express.js, and MongoDB. Implemented user authentication, video browsing, saving functionality, and a Food Partner system with OTP-based registration for content upload and management.

Customer Segmentation App (Machine Learning)

- Built a machine learning-based web application using Django and Python that segments customers using the K-Means clustering algorithm based on age, income, and spending score to generate actionable business insights for marketing analysis.

Smart Call Book App (Full Stack CRUD System)

- Developed a responsive contact management system using PHP, MySQL, HTML, CSS, and JavaScript. Implemented secure authentication, animated UI cards, and full CRUD operations for managing call records efficiently.

EDUCATION

- Bachelor of Science in Computer Science (BSCS)
- Federal Urdu University, Karachi
- 2024 – Present
- Focused on software development, web technologies, and data science fundamentals.

CERTIFICATES

- **Short Course in Python Development**
- NED University of Engineering & Technology — 2024
Covered Python fundamentals, problem-solving, and basic application development.
- **Short Course in Web Development**
- NED University of Engineering & Technology — 2025
Focused on modern web development using HTML, CSS, JavaScript, and responsive design principles.
- **Short Course in Data Science**
- NED University of Engineering & Technology — 2025
Learned data analysis, visualization, and fundamentals of machine learning using Python libraries like NumPy, Pandas, and Matplotlib.
